

Report to the Auburn City Council

Action Item

Agenda Item No. **2**

City Manager's Approval

To: Mayor and City Council Members
From: Bernie Schroder, Public Works Director *WS*
Prepared By: Carie Huff, P.E., Associate Civil Engineer *CH*
Date: August 13, 2012
Subject: 2012 Street Overlay Project – Dairy Road – Environmental Determination and Permission to Advertise

The Issue

Shall the City of Auburn find the 2012 Street Overlay Project – Dairy Road exempt from the California Environmental Quality Act (CEQA) per Section 15301 (c) Existing Facilities and shall the City Council authorize the Director of Public Works to advertise for the 2012 Street Overlay Project – Dairy Road pending Caltrans approval?

Conclusions and Recommendation

Staff recommends that City Council:

1. By **RESOLUTION**, find the 2012 Street Overlay Project categorically exempt from the California Environmental Quality Act (CEQA) per Section 15301 (c) Existing Facilities.
2. By **MOTION**, authorize the Director of Public Works to advertise for the 2012 Street Overlay Project – Dairy Road pending approval from Caltrans.

Background

In September of 2005 the City Council approved a Ten Year Pavement Overlay Plan which included Dairy Road (see the attached plan for the overlay limits). Dairy Road is identified as a major collector on the Caltrans California Road System map which means it is eligible for federal funding. Caltrans is responsible for oversight on federal aid projects; subsequently the City must receive authorization from Caltrans to release the project for advertisement and construction. Authorization for advertisement and construction is expected by the end of August.

This portion of the 2012 Street Overlay Project includes a 2-inch overlay on Dairy Road from Auburn Ravine Road to Luther Road. The project also includes overexcavation in locations of poor structural section, planing of existing asphalt concrete at gutters and intersections, adjusting manholes, valve boxes, water boxes and other utility boxes to grade, pavement restriping, traffic control and replacement of pedestrian ramps.

Additionally, California Environmental Quality Act (CEQA) clearance must be obtained prior to the start of construction. The 2012 Street Overlay Project – Dairy Road is exempt per Section 15301(c) Existing Facilities, of the California Environmental Quality Act.

Alternatives Available to Council; Implications of Alternatives

1. Proceed with staff recommendations.
2. Do not proceed with staff recommendations.

Fiscal Impact

The preliminary engineer's estimate for the 2012 Street Overlay Project – Dairy Road is \$423,000. Regional Surface Transportation Program (RSTP) funds are available in an amount of \$322,928. The remaining funds for the project will be allocated from the Local Transportation Fund of which \$502,340 is available. The remaining Local Transportation Funds will be used for future overlay projects.
